# 1 Presidential Editorial

## BSSPD 'Managing Failing Implants: How should we maintain them' Presidential editorial

It is hard to think that in less than eleven weeks my time as BSSPD President will be over. Certainly the year has flown by and plans that I put in place over 2 years ago now are about to be complete at the annual conference. Maybe it is an age thing, or maybe because we are all so busy now, we don't have time to deal with all the issues that we would like to during our presidential year.

I am, with the help of Linda, Mike and the Council putting in place all the final touches for the conference. I have managed to secure the Chief Dental Officer of Scotland, Miss Margie Taylor to open the conference and I hope you will agree that we have managed to secure a very impressive list of national and international speakers. The final programme is now available online and we would welcome more posters to be presented. I will accept abstracts for posters right up to the middle of February if possible.

This conference would not have been possible without the support of our Platinum Sponsors: Astra, Nobel Biocare, Southern Implants, Straumann and 3i and currently our fifteen other sponsors. Also, thanks to Dr Julian Satterthwaite, we have secured a significant sponsorship income for this event and therefore with only eleven weeks to go I find the low number of delegates that have registered so far slightly disappointing. I realise that we all have increasing pressures and far more conferences we can attend. I also realise that financial support to attend conferences is becoming tighter but I would like to think that it is unlikely that we could gather such an array of talent on this subject in Britain again in the next few years and therefore I would urge you to register and encourage any others known to you, that have never attended BSSPD before, to savour the unique atmosphere of our annual conference.

It has been a great honour to be president of this society this year and I am very excited about the forthcoming conference in March. However, I am acutely aware that at the end of my presidency my input to the society does not end, and to continue to move the society forward we, the Council and members, must continue to put both time and effort into this most important institution so that the next ten years can be exciting and challenging for all the membership.

Craig Barclay

## ② BSSPD Conference 2010: Stirling 27-29th March

### How to register

To register for the 2010 Annual Conference at Stirling, book online via our website: [www.bsspd.org](http://www.bsspd.org)

The BSSPD member rate for full residential package for all three days is £525. This includes symposium day, two nights accommodation at Stirling Management Centre, symposium dinner at Stirling Castle and conference dinner on the Sunday night.

Further details and other rates including for non-members and special rates for members of other societies are listed on the website.

You can pay to attend our conference by credit / debit card or cheque. Credit and debit card payments are securely processed by RBS Worldpay.

### ③ BSSPD Conference 2010

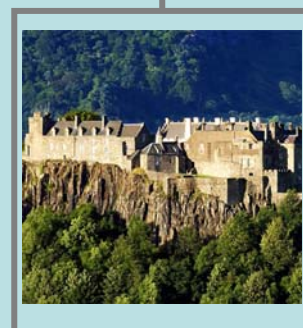

#### Provisional Programme: Saturday 27th March 2010

- 09:30 - 10:20: Registration
- 10:20 - 10:30: Opening of conference  
[Miss Margie Taylor: Chief Dental Officer of Scotland](#)
- 10:30 - 11:30: Do Implants fail if so, why?  
[Prof Tomas Albrectsson](#)
- 11:30 - 12:30: Factors that affect implant survival  
[Dr Patrick Palacci](#)
- 12:30 - 13:30: Lunch & trade exhibition
- 13:30 - 14:30: The management of peri-implantitis  
[Prof Stefan Renvert](#)
- 14:30 - 15:30: Non-surgical vs. surgical treatment approaches for management of peri-implantitis lesion.  
[Dr Frank Schwarz](#)
- 15:30 - 16:15: Coffee/tea & trade
- 16:15 - 17:15: Dental implant maintenance: how to achieve success  
[Dr Stefan Ellner](#)
- 19:00 for 19:30 Stirling Castle Conference Dinner  
[Dress code: Black Tie](#)

#### [Miss Margie Taylor](#)

Born in Edinburgh and educated at James Gillespie's High School, Miss Taylor graduated from Edinburgh University in 1978. She gained an MSc in Community Medicine in 1985 and an MBA in 1996. She is a fellow in dental surgery of the Royal College of Surgeons of Edinburgh and the Royal College of Physicians and Surgeons of Glasgow and an honorary member of the Faculty of Public Health Medicine. Miss Taylor has also held posts as Honorary Senior Lecturer at St Andrews, Glasgow and Dundee universities.

Miss Taylor has extensive experience in dentistry and is currently Consultant in Dental Public Health at NHS Lanarkshire. Before joining NHS Lanarkshire in 1994, she worked in Fife and Lothian as Chief Administrative Dental Officer and in clinical dentistry respectively. She has also held positions as board member at NHS Health Scotland between 1998 and 2006 and has chaired the dental committee at NHS National Education for Scotland for the past few years.

## Prof Tomas Albrektsson

Tomas Albrektsson, MD, Ph D, ODhc, started working on oral implants with PI Branemark in the late 1960s. Prof Albrektsson is currently the Head of the Dept of Biomaterials of Göteborg University. He has presented some 800 invited lectures all over the world and published some 600 scientific papers and reviews on topics such as oral, craniofacial and orthopaedic implants, bone blood flow, bone remodelling and implant surfaces.

The Editor of 10 scientific books and the member of the Editorial Board of 8 international scientific journals. Editor-in-Chief of Applied Osseointegration Research, a scientific monograph, since 2000. Several patents in the field of biomaterials. The author of more than 600 abstracts, reviews and scientific papers on bone grafts, vital microscopy of bone, experimental implants, oral and craniofacial reconstructions and orthopaedic implants. Paper by Brånemark, Albrektsson et al (1983) was in 2006 awarded as one of the top papers published in Biomaterials during 25 years. Paper by Wennerberg & Albrektsson (2000) awarded title of best paper in Int J Oral & Maxillofacial Implants published in the year of 2000. Ranked among the 6 most quoted scientists of the Medical faculty of Göteborg University in an investigation covering the years between 1986 and 2001.

## Dr Patrick Palacci

Dr. Palacci received his DDS degree from Marseilles University, France, in 1975. He continued his postgraduate education in periodontology at Boston University from 1977 to 1981 and was appointed as a visiting professor at the university in 1982. Dr. Palacci is a private practitioner in Marseilles and heads the Brånemark Osseointegration Center in Marseilles, working in very closely with Prof. P-I Brånemark. He also works in Monaco together with Professor Claude Pallaanca.

He developed several techniques in relation with optimal implant positioning, papilla regeneration technique and esthetic implant dentistry. He is the author of numerous scientific articles and two textbooks published by Quintessence in 1995 and 2001. Dr. Palacci got the first Nobel Pharma Award in 1995. Dr. Palacci presently conducts a number of courses in his private clinic and has been invited as a speaker to scientific meetings all around the world.

## Prof Stefan Renvert

Stefan Renvert received his D.D.S. degree from the University of Lund, Sweden, in 1975. In 1979 he spent one year as visiting professor at Loma Linda University in California, USA. He then completed graduate training in Periodontology at the Dental School in Malmö University of Lund, Sweden with a certificate in Periodontology 1981 and the Odont.Dr. (Ph.D) degree in 1984. In 1999 he became Professor of Oral Health Sciences and Research Director at Kristianstad University, Sweden. Professor Renvert also holds a position as visiting professor at Dublin Dental Hospital, Trinity College, Dublin, Ireland.

Professor Renvert's early research focused on outcome assessments of different treatment modalities of intra-osseous defects and diagnosis of periodontal diseases. His collaborative research efforts over the last years have resulted in numerous publications on periodontal microbiology, guided bone regeneration around implants, peri-implantitis and the association between periodontitis and cardiovascular diseases. Professor Renvert has published around 100 papers in international and national journals.

At present Professor Renvert's research focuses on diagnosis and treatment of peri-implantitis, risk assessments and the association of periodontal disease to the general health, especially periodontitis and its association to cardiovascular disease.

#### Dr Frank Schwarz

Dr Frank Schwarz is currently the Assistant Professor in the Department of Oral Surgery at the Heinrich Heine University in Duesseldorf. His doctorate focused on periodontal treatment with an ER:YAG laser and in 2002 he received the young researcher award for his work on Lasers in Dentistry, after which he worked as an Associate at the Department at the Ludwig Maximilians University in Munich.

The winner of the coveted André Schroeder Research Prize, an annual award for the advancement of dental research and development, was announced in New York by Straumann's President and CEO, Gilbert Achermann. Dr Schwarz, who is the fourteenth recipient of this prestigious prize, was selected by the independent jury for his scientific investigation of the effects of surface hydrophilicity and microtopography of titanium dental implants on soft and hard tissue integration.

#### Dr Stefan Ellner

Stefan Ellner, DDS, passed his Dental exam in 1982 and began implant training in 1988 and became a Board certified prosthodontist in 1999. He is a Senior consultant 1994 and Head of Department, Clinic for Prosthodontics, Specialist Dental Centre, Kalmar County Hospital, 1999. He is the principal investigator in four multicenter implant studies and lectures on both national and international basis.

He is the co-author in Cooper L et al. A multicenter 12-month evaluation of single-tooth implants restored 3 weeks after 1-stage surgery. Int J Oral Maxillofac Implants. 2001 Mar-Apr; 16 (2): 182-92.

He won the prize of "Best Scientific Article in 2003" for Ellner S, Bergendal T, Bergman B. Four Post-and-Core Combinations as Abutments for Fixed Single Crown. A Prospective up-to-10-year Study. Int J Prosthodont. 2003;16:249-254.

## Provisional Programme: Sunday 28th March 2010

- 08:40: BSSPD Council meeting
- 09:15 - 10:00: Registration
- 10:00 - 11:00: Dental implant education  
[Mr Paul Stone](#)
- 11:00 - 12:00: Dental implant medico-legal considerations  
[Mr John Cameron](#)
- 12:00 - 13:00: Open papers
- 13:00 - 14:00: Lunch & trade exhibition
- 14:00 - 15:00: Dental implants in the management of hypodontia  
[Mr Karl Bishop](#)
- 15:00 - 16:00: Schottlander papers
- 16:00 - 17:00: Posters, trade exhibition & coffee
- 17:15 - 18:15: BSSPD AGM
- 19:30 *for* 20:00 Conference dinner  
[Dress code: lounge suit](#)

### [Mr Paul Stone](#)

Paul has been involved with implant dentistry for more than 20 years and has placed several thousand implants over that period. He lectures both nationally and internationally, and holds senior positions on a number of representative bodies in both the UK and in Europe.

Paul is Chairman of the Royal College of Surgeons of Edinburgh Advisory Board in Implant Dentistry, President Elect of the European Association of Osseointegration (EAO), a member of the General Dental Council Working Group convened to revise the Implant Training Standards Guidelines for General Dental Practitioners. He is also a Fellow of the International Team for Implantology (ITI), and Past President of the Association for Dental Implantology (ADI).

Paul's main areas of interest lie in implant surgery and reconstruction, as well as education, training and assessment for implant dentistry

## Mr John Cameron

John Cameron is the Senior Dental Adviser for NHS National Services Scotland. He has extensive medico-legal experience and has formerly been Dental Adviser for MDDUS and Local Adviser and a member of the Dental Advisory Panel for Dental Protection Ltd.

He has both dental and legal degrees, and in addition to his current work for NHS Scotland he runs a company advising health care professionals on legal problems. He has made representations at the GDC, GMC NMC and at three employment tribunals in the last year alone.

John lectures widely throughout the UK on risk management and medico-legal matters as well as having contributed to several books and publications.

## Mr Karl Bishop

Following qualification from Cardiff in 1981, Karl Bishop entered general practice until 1992, and from 1984 until 1992 he was also a part-time lecturer in the Department of Restorative Dentistry at the University Dental Hospital, Cardiff. From 1992 until 1994 he was Registrar in Restorative Dentistry at Kings Dental Institute, London, and he held the post of Senior Registrar in Restorative Dentistry at Sheffield from 1994 until 1997.

At present Mr Bishop is a Consultant in Restorative Dentistry and Implantology at Morriston Hospital, Swansea and holds an Honorary Consultant's post at the University Dental Hospital, Cardiff. He is the Postgraduate Dental Tutor for South West Wales (Swansea) and has published extensively on a wide range of restorative topics.

He is also recognised by the GDC as a Specialist in Restorative Dentistry, Endodontics, Prosthodontics and Periodontology. He has a special interest in the implant rehabilitation of patients who have experienced trauma or surgery and advanced multi-speciality restorative procedures.

## Provisional Programme: Monday 29th March 2010

09:00 – 09:30: Registration

09:30 – 10:30: The role of dental implants in oral rehabilitation of head and neck cancer patients.

[Mr Chris Butterworth](#)

10:30 – 11:30: Open Papers

11:30 – 12:30: The role of dental implants in management of hypodontia

[Mr Peter Briggs](#)

12:30 – 12:45: Close of meeting and induction of new President

### [Mr Chris Butterworth](#)

Chris is a consultant in Restorative Dentistry based between the regional maxillofacial unit at Aintree and the Liverpool University Dental Hospital. He is the lead clinician for dental implants at the Dental Hospital and also leads the oral rehabilitation service in Merseyside for the rehabilitation of oral cancer patients. He holds an honorary lecturer's contract with the University of Liverpool.

He has extensive experience in the treatment planning, surgical placement and restoration of dental implants. He is interested in the use of computerised dental implant planning techniques for complex cases and in quality of life outcomes following dental implant treatment.

He is a member of the Association of Dental Implantology, the British Association of Head and Neck Oncology and a council member of the BSSPD. He sits on the Specialist Advisory Committee for Restorative Dentistry at the Royal College of Surgeons of England and examines at all levels of postgraduate examinations in Restorative Dentistry. He has contributed significantly to the scientific literature and lectures on a regular basis within the UK. He sits on the Specialist Advisory Board for the Diploma in Implant Dentistry examination at the Royal College of Surgeons of Edinburgh.

### Mr Peter Briggs

Peter qualified in 1983 from King's College Hospital Dental School. He completed a MSc at the Eastman Dental Institute in 1988. He was awarded a Winston Churchill Travel Scholarship in 1994 to study oncology abroad and was appointed a Consultant in 1995. Peter was appointed Clinical Director of the Maxillo-Facial Unit at St. George's Hospital in 1997. During that time a modern Maxillo-Facial out-patient facility was commissioned, Maxillo-Facial Surgical and Dental services were re-organised within South West London with St. George's the 'Hub' centre. The Roehampton Laboratory transferred to St George's in 2006.

He has published over 40 publications and is committed to teaching and training. He is a past chair of the Specialist Training Committee and Training Programme Director. Peter is currently the Postgraduate Dental Tutor at St. George's and also has been appointed to lead the teaching team of the first Pan-London DwSI program (which is supported by 10 PCTs).

He is a present ISFE examiner and has been invited to lecture to the following groups: BDA National Conference / BDA Young Dentist Conference / Consultants in Restorative Dentistry Group / European Prosthodontic Conference / British Society of General Dental Practitioners / British Society of Restorative Dentistry / Faculty of General Dental Surgery RCS (Eng).

Peter's clinical interests include: Multi-disciplinary care, implantology and microscopic dentistry. Peter is married to Karen and has three sons.

## A big thank you to our sponsors

Our Annual Conference has been generously supported by a large number of sponsors this year, who have helped greatly in allowing us to present speakers of such high standing. Please show your appreciation and ensure continued support by visiting the trade stands during the conference.

### Platinum Sponsors

Astra Tech 3i Nobel Biocare Straumann Southern Implants

### Confirmed Sponsors

General Medical; Lemon Chase; IDT; Sybron Dental/Orasoptic;  
Implantium; Dentale; Heraeus Kulzer; Optident; 3M IMTEC;  
BioHorizons; Coltene Whalident; Dentsply Friadent;  
Planmeca/J&S Davis; Swallow Dental; 4SquareHealthcare; Kerr

## 4 BSSPD News

### BSSPD Council Member joins in the 'big freeze'

Dr Janice Ellis, Hon Secretary for BSSPD spent Boxing Day 'chilling out' along with 1000 others.

These brrr-ave souls defied freezing temperatures to go for a dip in the sea at Seaburn beach, Sunderland, taking part in a daring Boxing Day tradition, now in its 35<sup>th</sup> year.

The sea temperature was six degrees centigrade, while on land it was only one degree, Dr Janice Ellis, Hon Secretary for BSSPD, said about her experience: "I can report that the dip was successfully completed. Along with the rest of the family I donned fancy dress (strange white romper suits!), ran across the snow covered beach and 'dipped' into the sea. Lucy and Tim dived in head first - I wasn't quite so brave but did get into to shoulder depth. The bunches are not my usual hair style but we were meant to be dressed as water babies - hence the pink bib also."

This year the sponsorship was split 3 ways between Lions Club, Great North Air Ambulance and City of Sunderland Amateur Swimming Club, with over £70,000 being raised in total. Dr Ellis would like to thank all who agreed to sponsor her - to date Janice has been pledged in excess of £250. Especial thanks to those of you who have already sent her cheques/money. If you wish to make a donation, please make your cheque payable to COSASC and send to Dr Janice Ellis at:

Restorative Dentistry  
School of Dental Sciences  
Newcastle University  
Framlington Place  
Newcastle upon Tyne

## BSSPD President honoured in North West Innovation Awards 2009

Craig Barclay and Chris Butterworth were placed 2nd in the software category at the recent North-West Innovation Awards ceremony held in Central Manchester on the 11th November 2009.

Their entry entitled "The BORRN Head and Neck Cancer Touchscreen Database" had been shortlisted into the top four entries from a total of 24 entries in the software category.

The touchscreen database was the culmination of several years work with a significant contribution by Dr Anne Sharrock from Manchester Computing Centre. The program uses a touchscreen computer to allow patients to complete questionnaires which they would otherwise complete in paper. The program can use any number of different questionnaires which the user wishes and allows detailed data analysis.

Richard Deed, Innovation Unit Manager of *TrusTECH* stated "The North West region has some of the UK's best NHS innovators and these awards recognise and reward the NHS staff in the North West that are producing innovations that ultimately benefit North West patients."

## BSSPD Membership

Please encourage dentists, doctors and scientists who are interested in prosthodontics to join our society.

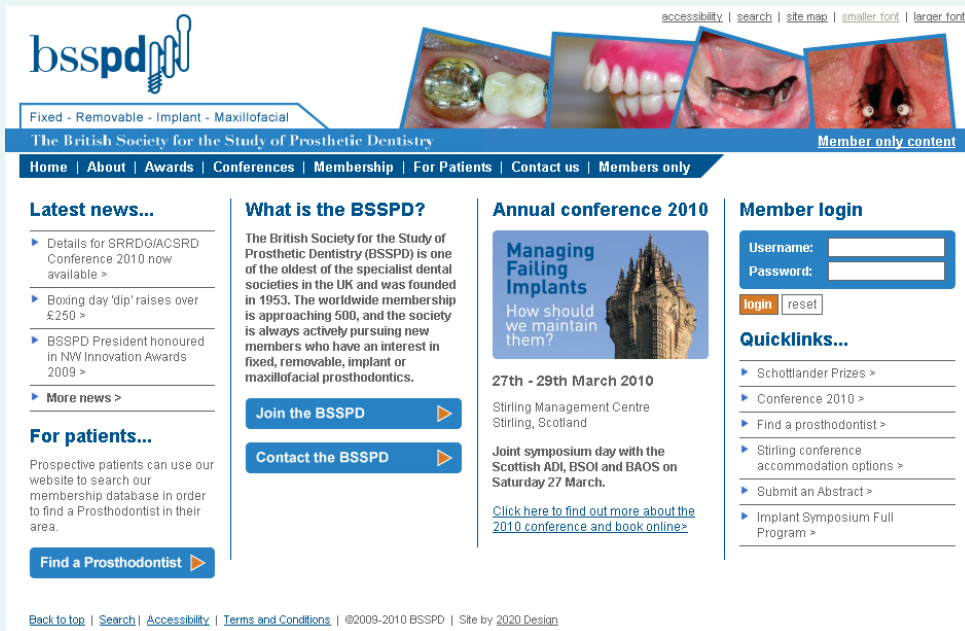

Application for membership can be made via the on-line form ([www.bsspd.org](http://www.bsspd.org)). Full membership for 2010 is £60 and includes subscription to The European Journal of Prosthodontics & Restorative Dentistry

If you have any further queries about joining the BSSPD then please do not hesitate to contact the BSSPD Membership Secretary

## 5 New Website

It has been nearly 6 months since the BSSPD website had its 'face lift'. The hot new look as well as the user-friendly interface have turned [www.bsspd.org](http://www.bsspd.org) into the ultimate place for gaining the latest info on Prosthodontics. Members of the society now can manage their details, keep in touch with other colleagues, submit abstracts for annual conferences, and have exclusive access to member-only documents.

Patients can also benefit from the new website. They can read about the Society, find out more about prosthodontics and read more about conventional prosthetic terminology and get a layman's definition. They can also search for prosthodontists within their area – identifying those members who have enabled this facility. The new website also has a variety of accessibility features.

The screenshot shows the BSSPD website homepage with a blue header and navigation bar. The main content area is divided into several sections:

- Latest news...**: A list of recent news items, including details for the SRDGI/ACSRD Conference 2010, a Boxing day 'dip' raising over £250, and the BSSPD President being honoured in the NW Innovation Awards 2009.
- For patients...**: A section for prospective patients to search the membership database to find a Prosthodontist in their area.
- What is the BSSPD?**: A section explaining the society's history and mission, with a button to 'Join the BSSPD'.
- Annual conference 2010**: A section for the 27th-29th March 2010 conference in Stirling, Scotland, featuring a 'Managing Failing Implants' theme and a joint symposium day.
- Member login**: A section for members to log in with their username and password.
- Quicklinks...**: A list of quick links to various resources, including Schottlander Prizes, Conference 2010, Find a prosthodontist, Stirling conference accommodation options, Submit an Abstract, and Implant Symposium Full Program.

The footer contains links for 'Back to top', 'Search', 'Accessibility', 'Terms and Conditions', and copyright information for 2009-2010 BSSPD, with a note 'Site by 2020 Design'.

Joining BSSPD and signing-up for the annual conference have never been easier. The new website facilitates online transactions and accepts all the major cards to make bookings a convenient experience for the online users.

The development of the new website has been overseen by Chris Butterworth who has served the society for many years as webmaster and membership secretary. As he steps down from his position as webmaster, he hands responsibility over to James Field who will no doubt continue to build upon this work and take the website from strength to strength.

The website remains the prime means of communication within the society; therefore, please remember to log-in to update your details and take advantage of the new site.

## Nominations sought for two new Council members

A row of ten light blue downward-pointing arrows, each with a small white outline, positioned above the first paragraph.

Two Council members are due to retire at the AGM in April 2010:  
Dr Robert McAndrew and Dr David Attrill.

Nominations are sought for two new Council members to serve from 2010-2013.

Nomination forms for Council members are attached (see following page) or electronic versions can be obtained by e-mail from the Hon Secretary. Nominations should be duly proposed and seconded by Society members and returned to the secretary with an indication that the nominee has been approached and is willing to stand.

The closing date for nominations is 5th March 2010

## Duties and responsibilities of Council Member (Ordinary) of BSSPD

To represent the body of the BSSPD in an appropriate manner and to ensure that the voice of the ordinary member of BSSPD is considered in all business undertaken by Council

To ensure that the business of Council is carried out in as suitable manner and that such is undertaken with the membership's best interest in mind

To attend Council meetings and contribute to the business of Council

To disseminate and support the opinion of Council in matters relating to the business of Council at a local level when required to do so

To promote the society in a suitable manner at local, national and international levels whenever the opportunity arises

To judge awards of the Society when asked to do so  
To respond (in a timely fashion) to reports submitted to the Society for consideration

To actively support the President and Secretary in BSSPD business that they may be involved in

To serve a 3 year term of office.

## Nomination Form for Election to BSSPD Council

### Nomination Form for Election to BSSPD Council

Name of Nominee:

\_\_\_\_\_

Name and Signature of Proposer (must be a BSSPD member):

\_\_\_\_\_

Name and Signature of Secunder (must be a BSSPD member):

\_\_\_\_\_

The nominee is requested to provide an election statement of 200 words or less ( for use in the event of a ballot being necessary):

I confirm my willingness to stand for election to the BSSPD Council

Signature of Nominee: \_\_\_\_\_ Date: \_\_\_\_\_

Completed forms should be returned by 5th March to:

Dr Janice S Ellis

Hon Secretary BSSPD
